Hi Patrick-

I threw this together. The coordinates are also on it, please let me know if this does not clear it up, and you still need assistance.

Thanks,
mike

Hi Mike,

I wanted to follow up again regarding the shiny metallic dust you had seen on your vehicle and on the oil sheen in the water. I wrote down that you were at the NPDES outfall 001. I'm having a hard time finding the outfall location in ArcelorMittal's NPDES permit.

Could you point that out on a map or google map? I'd appreciate it.

Thank you again for your help on this.

Patrick
